Great is the Name of King, and full of Splendor,  
Great, Good and Just is our great Faith's Defender;  
May he live long, his Enemies to quell,  
And Honour those who have deserved well.  
As Age comes on, Lord, let his Joys increase,  
And keep us in continual Peace:  
So having long his Earthly Crown enjoy'd,  
And by his loving Subjects been obey'd,  
Let him at length enjoy a Heavenly Crown,  
Where Saints and Angels sit in high Renown.

The Head and Face the Princely Ram doth rule.  
The Neck and Throat falls to the fullen Bull.  
The lovely Twins guide Shoulder, Arm, and Hand.  
The slow-paced Crab doth Breast, and Spleen command.  
The Lion bold governs the Heart of Man.  
The modest Maid doth on the Bowels scan.  
The Reins and Loin are in the Balance try'd.  
The Scorpion the Secret Parts doth guide.  
The Shooting-Horse lays claim to both the Thighs.  
The Knees upon the head-strong Goat relies.  
The Water-man he both the Legs doth claim.  
The Fishes rule the Feet, and meet the Ram again.

So the World goes.

And when grey Hairs and Aches say we're old,  
But with impatient Ears we hear it told.  
Our Days are Toil, our Years pass fast away,  
Of which (to God) a thousand's as one Day.

Thus Nature's Clock-Work, by that Mighty one  
Wound up at first, and ever since 't has gone;  
No Pin dropt out, its Spring and Wheels hold good  
And speaks its Maker's Praise; yet once it stood  
But 'twas by Order, by the Workman's Power,  
Yet when it stands again, it goes no more.

### Astrological Observations.

Notwithstanding all the seem-  
 ingly soft and healing Aspects  
 of this Month, we shall find it  
 a Month of Mischief enough.  
 First Quar. 5 day at 1 morn.  
 or at least mischievous Councils,  
 close and underhand Contri-  
 vances and Debates, as may ap-  
 pear from the Planets, being all  
 pointed in the J. C. at the New  
 Full Moon 11 day at midn.  
 Moon, except Mars and Venus  
 who guards that Congress on  
 each Side; for Mars is in the  
 3d House, and Venus in the 5th  
 27 Degrees of Leo ascends, and  
 16 of Taurus culminates, which  
 with the Conjunction of the Sun  
 Last Quar. 19 day 11 night.  
 and Mercury about this time  
 shews great Consultations  
 about Matters of Moment, which  
 tho' so privately carried on, will  
 be discover'd or betrayed by  
 some underhand Treachery, or  
 else the Council it self will be  
 New Moon 27 day 4 aftern.  
 found to be treacherous and  
 mischievous when discover'd.

# December hath xxi Days.

Chronus and Sol are join'd ; and would you know,  
What are the Projects they consult to do ?  
Consider well, and view the Folks above,  
Saturn and Mars are joined unto Jove.  
But let me pass, and when this Journey's over,  
I'll try if better Things I can discover.

If you would know the Interest of One Hundred Pounds for  
Month, two Months, three Months, six Months, nine Months,  
Year; look for 100 l. in the Side, and in the next Column under  
which is Eight Shillings and Four Pence; for 2 Months 16 s. 8 d.  
3 Months 24 s. for 6 Months 48 s. for 9 Months 72 s.

*This is the honest way by which Men should  
Take Interest let their Silver and their Gold.  
Yet worldly Misers, when to raking fall,  
Then, with their Interest, get the Devil and all.*

## Moore, 1722.

### *Of the Winter Quarter.*

THE Winter Quarter takes its Beginning at such Time as the glorious Lamp of Heaven, the Sun Possession of the Celestial Goat, or mounts the first Point of the Sign Capricorn, which happens on December 1721, 9 min. past 8 at Night, by the Tables in *Scientia Stellarum*, at which Time 19 deg. of *Leo* ascends the Meridian and 4 deg. of *Taurus* on the Cusp of the Meridian of Cæli: At the Beginning of this Quarter the Planets are at Peregrin, and all under the Earth, except the Moon, who is in the 10th House in his Determent; and the Lady of the 10th, is located in the 4th House; also is *Saturn*, *Jupiter*, and *Mercury*, and *Scorpio*, upon the Cusp of the 4th: These are unhappy Positions, and lead to the forwarding of Discord, Troubles, and Inimities, many sly and secret Councils and Contrivances amongst such as are altogether Vile, Base, and without Reputation or Quality; Popery looks more dismal than ever, and the Time is hastening when that Anti-Christian Religion will be no more. O ye false, lascivious and luxurious Priests, how have ye poisoned all Nations with the Cup of your Abomination, and triumphed in the Blood of Martyrs! Oh blessed *England*, who produced the first Christian King, and who first exploded Anti-Christian Principles, be ye in Unity with each other, for the Lord, the Mighty God of Hosts, hath surely chosen you his Chosen People, and an Instrument for the bringing of *Anti-Christ*! The People of *England* will be troubled with Fevers and Epidemical Diseases this Quarter, and the Merchants will receive Loss from Pyrexias, and contrary Winds.

### *Of the Spring Quarter.*

THE Spring Quarter takes its Beginning at such Time as bright *Sol* mounts the first Point of the celestial Ram or Sign *Aries*, which happens this Year March 9th Day, 2 Minutes, 7 Seconds past 10 at Night, according to *Scientia Stellarum*; at which Time 12 deg. of *Scorpio* ascends the Eastern Horizon, and 28 deg. of *Sagittarius* culminates, *Saturn* is in *Sagittarius*, placed in the 2d House of Heaven, in Opposition to *Mars*, and in Trine to *Mercury*; *Jupiter* is located in the Ascendant, just above

bove the Cusp of the 2d House, and virtually in the 2d and in the Sign *Sagittaries*; *Mars* is in the 9th House, *Gemini*; *Venus* is in the 4th House; *Mercury* in the 5th House, in *Aries*, as is also the *Sun*: The *Moon* is in the last deg. of *Taurus*, and located in the 7th House: These are untoward Positions, and such too as seems to threaten us with Wars, Bloodshed, Wrangling, and Hatred amongst Mankind; for *Mars*, Lord of the Ascendant, passing from the Opposition of *Jupiter*, and applying to the Opposition of *Saturn*, and *Saturn* in Square to *Venus*, Lady of the 7th House, premonstrates nothing less than Hostilities and Violence between Nations, Surprising Robberies, and Violence, even amongst Neighbours and Kinsmen; Commotions and Effusion of Blood, in which *Brabant*, *Lombardy*, *Flanders*, *Sardinia*, &c. will have their Share: Neither will *London* be free from the Effects of these ill Rays; and who do ye think will be the Embarass'd Parties of these Discords and Unhappineffes amongst Nations? Why, to tell you the Truth, even the Common People are divided and broken, lying, plaguy Mercurilists: Very fine! well let 'em go on, for they are hastening themselves to Destruction. *Spain* is in a more particular Manner concerned in these destructive Influences; and, indeed, I say Truth, all the glorious Hierarchy seems to combine together for the Punishment of that Nation for (as I hope reforming of it from) their gross Idolatry and superstition, with which that Nation hath been so long bewitched: Great Losses and Dearth amongst their Cattle, especially Horses; Consumptions, Fluxes, Fevers, Small Pox, and Scurvey, will be the raging stempers of this Revolution; the Towns of *Valencia*, *Spain*, *Algiers*, *Ghent*, *Vienna* in *France*, and other principal reign Places, will be afflicted with Inundations; suffer much by venomous Creatures. At the Time of Ingress the *Sun* is in Trine to *Jupiter*, which might give some Hopes that it would in some Measure meliorate the mischievous Configurations of the rest of the Stars; but, alas, it's altogether unable, for both *Sol* and *Jupiter* are Sub under the Earth; and *Jupiter* just becoming Retrograde, and is also afflicted by the ill Rays of *Saturn* and *Mars*; so that this noble Aspect is not of sufficient Efficacy to evade these bad Ones: Pray God

we a good Understanding between our Most Gracious  
 Sovereign King *GEORGE* and his True Protestant  
 Subjects, direct and Prosper all thir Endeavours for  
 the Good of this Kingdom; and may the Church of  
 England in particular, and the Protestant Religion in  
 general increase and flourish while Time endures.

*Of the Summer Quarter.*

**T**HE Summer Quarter commenceth at such Time  
 as bright *Phœbus* mounts the Cælestial Crab or  
 Cancer, which, this Year, is on *June* the 10th Day,  
 9 Minutes past 10 at Night; at which Time 3 deg.  
*Aquaries* ascends, and 4 deg. of *Sagittarius* is on the  
 cusp of the *M. C.* Saturn Lord of the Ascendant, is in  
 the 10th House; and *Jupiter*, Lord of the 10th, in the  
 11th; and *Mars*, his Dispositor, in the 7th: The *Sun* is  
 in the 5th House, and in exact square to the *Moon*, who  
 is located in the 7th House; *Venus* and *Mercury* are in  
 conjunction in the 6th House, and in the Sign *Cancer*;  
 and in the 19th deg. thereof; new Troubles daily arising  
 in *Spain*, *Hungary*, *Sclavonia*, and other Places, who ex-  
 pect Aid and Assistance from *Italy*, *Sicily*, *Rome*, &c.  
 but, alas, there *Mars* is weak, strip'd of all his Power  
 and Dignities, so that their Hopes there will be quite frus-  
 trated, which will occasion great Sadness and Tribula-  
 tion amongst them: *Spain* need not doubt of the Effect;  
 an unfortunate *Saturn* beheld by a malignant and de-  
 graded *Mars*. *Jupiter*, the Lord of their Ascendant,  
 is, by a Retrograde Motion, lost his own House, and  
 now in that treacherous and false Sign *Scorpio*, where  
 he is Perigrin, thus you see whatever Noise and Prepa-  
 rations may be made in these Nations, how little able  
 they are to carry on their Designs: The Subjects of  
 Spain will be oppress'd with unusual Tyranny and Tax-  
 ations; and the Nobility themselves will be in great  
 distress and Tribulation; *Swedeland*, *Muscovia*, *Saxony*,  
*Polonia*, &c. will undergo great and grievous Infirmi-  
 ties, and will sustain such Losses: I wish *Oxford* may  
 be free from Infections: The Sea is infested with Py-  
 rates as well as the Land with Highwaymen; a Great  
 number die this Quarter, whose Death gives a Turn to  
 the Affairs now in Agitation; the visible Eclipse which  
 hap-

happens this postivential Full-moon will influence Affairs of this and the succeeding Quarter; the Eclipse falls in the 8th House of Heaven, and in the deg. of *Capricorn*; and on the Scheme there is 8 deg. *Gemini* ascending, and 4 deg. of *Aquaries* on the C of the 10th House; *Saturn*, who is Lord of the eclipse, is in the 7th House Retrograde; these Positions considered, denotes Rebellion, Unhappiness of *Emine Men*; it also causes Diseases in the Body of Men, a general Decay of Nature, Wastings or Consumptions, Banishments, Poverty, vain Fears, Mortality among aged Men especially; Sicknes and Losse of such C as are useful for Mankind; a Scarcity of Corn, Fruits, and most Provisions are dear; Malice and vy amongst Men; consequently many tedious Law Suits. *Proclus* saith, when the Moon is eclipsed in the first canate of *Capricorn*, (as this is) it moveth Suggestion amongst Men, and sheweth the lamentable Murthers of some excellent Man.

*Of the Autumn Quarter.*

**T**HE Autumn Quarter begins when the Sun enters the first Scruples of *Libra*, which happens this Year on September the 12th Day, about half Hour before Noon; when 28 deg. of *Scorpio* ascend the Eastern Finister, and 22 deg. of *Virgo* calluminate the Planets are Angular except the Moon, who is in the 3d House; and *Venus*, who is in the 12th: *Saturn* and *Jupiter* are in the Ascendant, and *Sol*, *Mars*, *Mercury*, in the Angle of Honour; the most material Aspects are the Moon in Square to *Saturn* and *Sun* and in Trine to *Venus* and *Saturn*; and *Jupiter* in tile to the *Sun*, *Mars* and *Mercury*; in the Consideration of these Positions and Configurations I can think but something very material will be put in Practice now abouts, tho' there yet is close and chievious Contrivances amongst some Persons; for *Saturn* Lord of the Ascendant, and *Mercury* Lord of the 3d are both under the Sun-beams, and *Mercury* is cum *Saturn* and *Astrollogers* say, *Mercury* combust shews that Persons represented by him are in great Fear, and are powered by some great Person; and *Mercury* and

are both Significators of Grandees and Noble-men, One accidental, the Other general; neither do I like *Mars* in such close Consultation with these 2 no-significators, and in the House of Honour too; it's if he does not shake the Power and Glory thereof, at least cause some Jealousies and Misunderstandings: The common People may meet with some Vexations and Troubles from their Superiors; as also Adversity and Straits among Martial Men: The *Moon* in conjunction with *Saturn* and *Jupiter*, from the 3<sup>d</sup> and 1<sup>st</sup> Houses denotes Mischiefs and Troubles to the People in their Person's Infirmities, and Saturnian Vexations: great Damages and Loss in Cattle, &c. there happens within the Limits of this quarterly Ingress 2 Eclipses, the 1<sup>st</sup> is of the *Sun*, on the 27<sup>th</sup> of *November*, in the Afternoon; 18 deg. of  $\delta$  ascends, and 27 deg. of  $\nu$  is on the Cusp of the 10<sup>th</sup>; the Eclipse falls in 16 deg. of  $\uparrow$ , and in the 7<sup>th</sup> House, where is crowded 5 of the 7 Planets. The 2<sup>d</sup> is of the *Moon*, on the 11<sup>th</sup> of *December*, in the Afternoon; 29 deg. of  $\Pi$  ascends, and 28 deg. of  $\nu$  culminates; this Eclipse falls in the Beginning of the Tropical Sign  $\epsilon$ , and in the ascending Part of the 1<sup>st</sup> House: These Eclipses create, or rather push forward other malignant Rays, and in particular those against *Spain*, *Hungary*, &c. they also denote the Motions of Armies, Wars and Effusion of Blood; Determinations of Noblemen; sudden Alterations of the Air, Murders, Thefts, Robberies on the Highway, Malignant Plagues, Depopulations, Afflictions both in Body and Mind, Destruction of Houses, and the Overflowing of Rivers.

At the latter End of *Decem.* is a Conjunction of *Saturn* and *Jupiter*, *Jupiter* and *Mars*, and *Saturn* and *Mars*, in *Sagittaries*, a Sign of the Fiery Triplicity; *Cardan* adviseth that thou be not hasty to give Judgment when thou seest a 6 of the Superiors in the fiery Triplicities; neither let it be of small Matter for their Actions are Pre-eminent above the other Triplicities: How true this Assertion of *Cardan's* is we need go no farther than to the Year 1702, when it was its Return into this Trigon, and what have been

been the Consequents of it the World but too w  
knows; yet there are some sceptical Persons who w  
not believe the Starry Influences, even tho' I sho  
trace it down to the World's Creation; but they w  
acknowledge that Comets and Fiery Meteors, are t  
Prodromy or Fore-runner of Wars, Famine, Plague  
and Pestilence, and Earthquakes; they lo k upon as t  
threatning Eye of Divine Vengeance, and the Tong  
of an ireful Deity, portending the Destruction of ma  
People; Ruin of Buildings, and that both Comets a  
Earthquakes causes manifest Changes and Diversifi  
of the Times, horrid and terrible Tempests, and un  
sonable Heat; and Cold or Heat unseasonable, t  
will own infects the Air and all that breaths in it,  
specially of such Creatures whose Heads are incli  
downwards; for, as *Seneca* saith, the Vapours, t  
ascend are deadly poisonous, bringing Plagues and Pe  
lence; that all is true, and will be acknowledged  
so by all Persons, especially such as have been con  
stant in the History of Comets and Earthquakes, wh  
we find very often Concomitants to each other;  
why? because one common Incentive produceth bo  
that is both drawing their Original from planetary  
fluences; (and that commonly under a Conflux of  
nets in the same Sign) which, when I have demon  
ed, (and that I absolutely can) I hope my Scep  
will allow that the various Radiations of the Pla  
under God are the Cause of Plagues, Famine, dire  
undations &c. and that Comets, Earthquakes, Exc  
and Exorbitances of Weather, do depend upon the  
flux of the heavenly Bodies at certain Positions;  
that the Stars have had the same Effects in all Ag  
the World I shall make manifest as far as my desig  
Room will allow of, and pursue it more largely  
ther Year.

In the Year 1500, in *Feb.* were  $\alpha$   $\delta$   $\gamma$   $\delta$ , in *April*  
lowing, a Comet appeared, at which Time the Sun  
Mercury were in Conjunction; as also were  $\gamma$  and  
and  $\gamma$  and  $\delta$  still within the Verge of their Activity  
May were a great Sicknesh, whereof died 30000; in  
ly is a  $\alpha$   $\gamma$   $\delta$ ; in *August* a  $\alpha$   $\gamma$   $\delta$ ; and in *Sept*  
a  $\delta$   $\gamma$   $\delta$ , *Vesuvius* Flames, and *Constantinople* Trem  
as *Roehenback* reporteth.

the Year 1506 appeared 2 Comets, the 1st in *April*, upon the  $\odot \text{ } \text{H} \text{ } \delta$  and  $\text{Q} \text{ } \text{Q}$ ; the 2d was in *August*, upon the  $\odot$  of  $\text{V} \text{ } \text{Q}$  in  $\text{M}$  and  $\text{H} \text{ } \odot \text{ } \text{Q}$ ; in *October* the raging Sicknefs  $\odot \text{ } \text{H} \text{ } \text{Q}$ , an Earthquake at *Constantino-*  
 $\text{H} \text{ } \delta$  being still within Orbs.

In the Year 1538, *January*, a Comet was seen,  $\text{H} \text{ } \delta$  being in Opposition from  $\text{M}$  and  $\text{Q}$ ; *Vesuvius* rages thrice this Year; in *Sept.* *Italy* felt an Earthquake terrible Tumours of the Earth; Fires break out near *Amo* in *Italy*, in which Month is a  $\odot \text{ } \delta \text{ } \text{Q}$  and  $\odot \text{ } \text{Q}$ , and a Square of Saturn and Jupiter from *Cardi-*  
*Signs*, all these in Association with that direful Aspect *Saturn* and *Mars*.

In the Year 1618 appeared no less than 4 Comets, the 1st in *August*, the 2d in *September*, and the 3d and 4th in *November*; the 3d lasted till *December*, and the 4th till *January* following; the  $\delta$  of  $\text{V} \text{ } \delta$  in *October* were above the Father of all these Comets, as being a most eminent and considerable Aspect; but yet, we will not say the only adequate Cause thereof, for we find it also, and its Influences continued, by the  $\delta \text{ } \text{V} \text{ } \text{Q}$  and  $\text{Q}$  in *August*, and the  $\odot \text{ } \odot \text{ } \text{Q}$  and  $\delta \text{ } \odot \text{ } \text{H}$  in *Novem-*

In the Month of *March* a Flame of Fire hung for some time over the Palace of *Paris*, a Foot broad, and a Cubit long, which, on the 7th Day, fired the Palace; at the same Time there is a  $\odot \text{ } \odot \text{ } \delta \text{ } \text{Q} \text{ } \text{Q}$ : The same Month an Earthquake in the *Indies*; and on *April* 21 were great Thunders and extreme Heat; a  $\odot \text{ } \odot \text{ } \delta \text{ } \text{Q}$  in *Q* moved by a Sicknefs in *London* and *Norway*; Grant,

In the Year 1682 a Comet appeared, a Conjunction of 2 Grand Superiors  $\text{H}$  and  $\text{V}$  in  $\text{Q}$ ; *May* following was an Earthquake at *Doncaster*  $\odot \text{ } \delta \text{ } \text{Q}$ , then began Sicknefs at *London*, which lasted 4 or 5 Months. I run thro' my confin'd Limits: so, till another Year, well,

Francis Moore.
